## Guy & Joan Custer

Joan and I are native Texans, Joan was born in Weatherford and I in Cisco. We were married in May of 1969, and we have 3 children and 5 grandchildren.

I enlisted in the Air Force at the age of 19 and spent 22 years in before I retired. I spent a lot of time in South East Asia while Joan stayed home and raised our rug rats, a son and two daughters. I worked on B52's, Kc135's, and B1b aircraft, a lot easier than raising children.

We were based in Altus OK, Anderson AFB Guam, Wurtsmith AFB, Castle AFB CA, Dyess AFB twice in Abilene, and Oscoda, MI. This was a little too cold for a Texas boy.

Joan and I have experienced all kinds of weather: tornados, blizzards, and typhoons. Seems like every where we went, there was a major 20-year storm.

I have had motorcycles most of my life starting with a 3 wheel Harley at 15 years old. Dad worked on it two weeks, and I got to ride it for 1 week. With my first reenlistment bonus from the service, I bought a 450 Honda, and Joan got a Hover spin washer. (A man has to have his priorities)

In the early years of our marriage I would get off work and ride with my friends till about 2 or 3 in the morning which not only made Joan a military left-at-home bride but a motorcycle left-a-home bride.

I retired from the Air Force in Dec. 1989 after 22 years. We moved to Forth Worth, Texas and bought a 1983 Aspencade which started our Goldwing adventures.

After 8 years in Forth Worth I took a job in San Antonio and in 2006 bought a new Goldwing which the bank and I like very much. We then met up with Chapter U and have enjoyed the Saturday rides and the latest Corpus Rally. We look forward to many more events and rides with the good people of Chapter U and the GWRRA.
